Acknowledgement of Country

AusNet respects and honours Aboriginal and Torres Strait Islander Elders past, present and future. We acknowledge the stories, traditions and living cultures of Aboriginal and Torres Strait Islander peoples on this land and commit to building a brighter future together.

The Western Renewables Link (WRL) project recognises and pays respect to the Wotjobaluk, Jaadwa, Jadawadjali, Wergaia and Jupagulk peoples, represented by the Barengi Gadjin Land Council (BGLC); Dja Dja Wurrung Clans Aboriginal Corporation (Djaara); Eastern Maar Aboriginal Corporation (EMAC); Wadawurrung Traditional Owners Aboriginal Corporation (WTOAC) and Wurundjeri Woi Wurrung Cultural Heritage Aboriginal Corporation (WWCHAC), the Traditional Owners of the lands on which the WRL will operate. The Project recognises the role of First Peoples - State Relations and each Registered Aboriginal Party (RAP) in the management, protection, and promotion of cultural heritage on Country, cultural awareness, and land access.

1. Introduction

1.1. Report purpose

This is a monthly report compiled by AusNet Transmission Group Pty Ltd (AusNet) and issued to the Essential Services Commission (Commission). This report provides a summary of the Western Renewable Link's (WRL's) performance against the general principles set out in the Commission's 'Electricity Transmission Company Land Access Statement of Expectations' (statement of expectations).

The Commission requires the reports to be provided on the first business day of each month unless otherwise agreed between AusNet and the Commission. Each report contains data for the preceding month. It is acknowledged that it may not be possible to include data related to land access that occurs in the final days of the reporting period. As such, each WRL report indicates the date up until which data has been included and outstanding data for the remaining days of that month will be included in the following month's report.

Each month the Commission makes a non-confidential version of the report publicly available via its website <https://www.esc.vic.gov.au>, therefore, AusNet provides the report in two formats:

- a report with confidential information, wherein the confidential information is clearly identified; and
- a report for publication which has the confidential information redacted.

1.2. Reporting overview

The commission has outlined the following reporting metrics for AusNet to provide each month.

1.2.1. Performance Summary

This section reports on key activities within the reporting period, together with parcel access statistics as follows:

The number of unique parcels (SPI) and corresponding number of landholders by landholder type and access methods, being voluntary access (land access consent or verbal agreement) and section 93 of the Electricity Industry Act 2000 (Vic).

- From June 2022 to July 2023, the number of parcels accessed were reported for each time a unique parcel was accessed for a survey date and survey type.
- From August 2023, the number of parcels accessed is reported as each unique parcel accessed during the reporting period.

1.2.2. Number of voluntary access agreement negotiations underway

Where temporary access to land is necessary, the majority of affected landholders have received the voluntary land access consent form to consider and discuss with their Land Liaison Officer. Ongoing conversations regarding voluntary access consents progress organically with each individual landholder as land access is sought. For this report, the total number of landholders is defined as any person/s (including an entity e.g., company or trust) entitled to hold a parcel of land within the proposed route.

Metric reported: Section 2, Table 1

Definition: Total number of private landholders minus:

- the number of landholders that have signed a voluntary land access consent form;
- the number of landholders that have declined to sign a voluntary land access consent form; and
- the number of landholders that have not yet been presented with a voluntary land access consent form.

1.2.3. How principles 2 – 14 have been applied to voluntary access agreement negotiations underway

Principles 2 to 14 have been applied as reported in Appendix D and as detailed in the spreadsheet in Appendix C (confidential).

1.2.4. Number of voluntary access agreements entered into

The total number of voluntary land access consent forms signed will be reported monthly. It should be noted that a landholder can withdraw their prior consent at any time for agreements signed before December 2022 therefore, this number may fluctuate.

Metric reported: Section 2, Table 1

Definition: Total number of new voluntary and access consent forms signed by both the landholder and land liaison officer, for the reporting period.

1.2.5. How principles 2 – 14 have been applied to voluntary access agreement entered into

Principles 2 to 14 have been applied as reported in Appendix D and as detailed in the voluntary land access consent form.

1.2.6. Number of notices issued regarding access under section 93 of the Electricity Industry Act 2000 (Vic)

AusNet provides written notice to enter land under section 93 (s93) of the Electricity Industry Act 2000 (Vic) (Act) to landholders a minimum of seven (7) days prior to the planned access date. As the notice to enter is sent in advance of planned access, the number of notices sent compared to number of the accesses to land that occurred pursuant to section 93 of the Act may not match.

Metric reported: Section 2, Table 1

Definition: Number of notices to enter under section 93 of the Act sent within the reporting period.

1.2.7. How principles 2 – 14 have been applied prior to issuing each notice regarding access under section 93 of the Act

Principles 2 to 14 have been applied as reported in Appendix D and detailed in the notice to enter under section 93 of the Act as well as detailed in the spreadsheet in Appendix C (confidential).

1.2.8. Number of times land was accessed pursuant to section 93 of the Act

The number of times land was accessed pursuant to section 93 of the Act, and in each instance whether each access was pursuant to a notice issued and the period between issuing a notice and access occurring.

Metric reported: Section 2, Table 1

Definition: Each instance of land access is counted separately, even if multiple instances of land access are conducted pursuant to a single notice. For instance, if a survey requires land to be accessed over three days, twice a day, it will be recorded that there were six instances of land access. The description of how the principles were applied, if common to the multiple instances of land access, is not repeated.

1.2.9. How principles 15 – 20 were applied to land accessed pursuant to section 93 of the Act

Principles 15 to 20 have been applied as reported in Appendix D and detailed in the notice to enter under section 93 of the Act as well as detailed in the spreadsheet contained in Appendix C (confidential).

1.2.10. Number and nature of complaints received in relation to section 93 access

The number and nature of complaints received, including those forwarded to the Energy and Water Ombudsman (Victoria), in relation to access under section 93 of the Act, the time to respond to each complaint, and actions taken, if any, in response to the complaint.

Metric reported: Section 2, Table 1

Definition: A complaint received from a landholder that specifically addresses their concerns in relation to land access under s93 of the Act.

1.3. Reporting period

Reporting period: 26 September 2023 – 25 October 2023

Previous reporting period: 26 August 2023 – 25 September 2023

2. ESC Statement of Expectations monthly report

2.1. Performance summary

This month we continued to meet with landholders and carry out required surveys for the Environment Effects Statement and Cultural Heritage Management Plans (CHMPs).

A letterbox drop was completed at the end of September, with approximately 40,000 postcards delivered to the community 2km either side of the project alignment to promote upcoming WRL community information sessions.

Activities from the reporting period include:

WRL eUpdates

- [25/10/23 - CFA-Firefighting-and-Transmission-Lines-FAQs](#)
- [27/09/23 - Permitted-vehicle-and-equipment-heights](#)

WRL eNews

- [5/10/23 - Upcoming community information sessions](#)
- [18/10/23 - Newlyn community information session change](#)

AusNet eNews

- [18/10/23 - Changes to Newlyn community forum](#)

For this reporting period, 26 September 2023 to 25 October 2023, AusNet accessed fifty-three (53) parcels of land owned by twenty-six (26) different landholders. Of these parcels of land:

- Twenty-six (26) parcels were public land owned by nine (9) different agencies.
- Twenty-seven (27) parcels were private land owned by seventeen (17) different landholders:
 - Nine (9) parcels, owned by six (6) landholders, were accessed via signed land access agreements;
 - Eleven (11) parcels, owned by seven (7) landholders, were accessed via verbal consent; and
 - Seven (7) parcels, owned by four (4) landholders, were accessed pursuant to s93 of the Act.

No compensation claims were raised in relation to land access directly to the project team during the reporting period.

No complaints in relation to land access under Section 93 of the Act were received via EWOV or directly to the Project during the reporting period.

Appendix A – Land Access Letter Templates

Table 2: Landholder land access correspondence process overview

Letters based on the process outlined in the Landholder Guide: Land access for field surveys and investigations published September 2022

STEP		DESCRIPTION
General Landholder Communication		
1	Project introduction letter	Every landholder within the proposed route is sent a project introduction letter, including where to find more information on the project.
2	Land access request for field surveys	We will send all landholders along the proposed route a general request to consider providing voluntary consent for AusNet to access their land to undertake field surveys and investigations. These may include, for example, land use or general flora and fauna surveys. Landholders will also receive a template voluntary land access consent form for their consideration.
Specific Survey Request i.e., identified survey requirement such as Aboriginal Cultural Heritage or Geotechnical		
3a	Request to access property for specific survey (issued minimum of 21 days prior to planned access)	The LLO will contact the landholder, via their preferred method, to request access to the property for a specific purpose and timeframe. We will provide the landholders with the voluntary land access consent form to consider.
3b	Follow up request to access property for specific survey may be sent where consent has not been provided (optional) (issued minimum of 14 days prior to planned access)	We may send the landholder a further request for access to their property for a specific purpose and timeframe and outline the process. The LLO will follow up with a meeting, phone and/or email to the landholder.
Voluntary Access Agreed		
4a	Confirmation of intention to enter property via voluntary consent (issued minimum of 7 days prior to planned access)	We will confirm the upcoming property access, activities and details 7 days prior to the landholder, or as agreed with the landholder.
5a	Confirmation notice of entry via voluntary consent (on the day of access)	The LLO will contact the landholder 24 hours prior to, and on the day of, access to confirm arrangements, or as agreed with the landholder.
Section 93 Access		
4b	Notice of intention to enter via s93 of the Act (issued minimum of 7 days prior to planned access)	We will send the landholder notice 7 days prior advising access to their property will be undertaken using powers under section 93 of the Electricity Industry Act 2000(Vic) with full details of activities.
5b	Notice of entry via s93 of the Act	The LLO will contact the landholder 24 hours prior to, and on the day of, access to confirm arrangements.

Note: there are specific requirements for Aboriginal cultural heritage field surveys under the Aboriginal Heritage Act 2006 (Vic) which must be considered.

1. ESC Statement of Expectations performance assessment

1.1. Approach to communication and engagement

Qualitative assessment of performance in relation to principles 2 – 5 can be found in the tables below.

1.1.1. Principle 2: Ensure staged, timely engagement and consultation.

Table 2: Approach to communication and engagement principle 2 – WRL performance for reporting period

Principle 2	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Ensure staged, timely engagement and consultation.</p> <p>An electricity transmission company will undertake staged, timely, relevant, and appropriate engagement and consultation with landowners and parties interested in land potentially affected by a proposed greenfield transmission project</p>	<ul style="list-style-type: none"> As early as is practicable in the planning process, publish details of the project, timeline, and key milestones, and update these as information changes. 	<ul style="list-style-type: none"> As per 2 October 2023 report - Document number: 1-001-ANS-000-PLC-MR-0016_2.0. 1.2. Process of communication and engagement

Qualitative assessment of performance in relation to principles 6 – 14 can be found in the tables below.

1.2.1. Principle 6: Identify and contact those affected.

Table 6: Approach to communication and engagement principle 6 – WRL performance for reporting period.

Principle 6	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Identify and contact those affected. 1.2.3. Principle 8: Outline access rights and obligations.

Table 8: Approach to communication and engagement principle 8 – WRL performance for reporting period.

Principle 8	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Outline access rights and obligations.</p> <p>An electricity transmission company will provide information on the rights of landowners' and parties interested in land in relation to its land access, as well as the company's commitment to meeting the principles in this Statement of Expectations. Table 12: Approach to communication and engagement principle 12 – WRL performance for reporting period.

Principle 12	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Give reasonable notice of proposed access.</p> <p>An electricity transmission company will ensure that notice periods and notice content (that is, providing details of activities) are reasonable. These must be proportionate both to the stage of the project, and to the potential impact of access on landowners and parties interested in the land.</p> <p>An electricity transmission company will establish and publish minimum notice periods for land access. Where practicable, notice periods and formats should reflect the landowner’s preferences.</p>	<ul style="list-style-type: none"> Seek agreement on reasonable notice periods for access that reflect land use and related timing requirements (for example, stages of crop growth, animal husbandry). 	<ul style="list-style-type: none"> As per 2 October 2023 report - Document number: 1-001-ANS-000-PLC-MR-0016_2.0.
