Acknowledgement of Country

AusNet respects and honours Aboriginal and Torres Strait Islander Elders past, present and future. We acknowledge the stories, traditions and living cultures of Aboriginal and Torres Strait Islander peoples on this land and commit to building a brighter future together.

The Western Renewables Link (WRL) project recognises and pays respect to the Wotjobaluk, Jaadwa, Jadawadjali, Wergaia and Jupagulk peoples, represented by the Barengi Gadjin Land Council (BGLC); Dja Dja Wurrung Clans Aboriginal Corporation (Djaara); Eastern Maar Aboriginal Corporation (EMAC); Wadawurrung Traditional Owners Aboriginal Corporation (WTOAC) and Wurundjeri Woi Wurrung Cultural Heritage Aboriginal Corporation (WWWCHAC), the Traditional Owners of the lands on which the WRL will operate. The Project recognises the role of First Peoples - State Relations and each Registered Aboriginal Party (RAP) in the management, protection, and promotion of cultural heritage on Country, cultural awareness, and land access.

Acronyms and definitions

Term	Expansion of Acronym
The Act	Electricity Industry Act 2000 (Vic)
Agency	Crown Land Authorities, Public Utilities, Statutory Authorities, and Infrastructure Authorities
Agency Land	Land Owned, Managed Administered or Controlled by an Agency
AusNet	AusNet Transmission Group Pty Ltd
BGLC	Barengi Gadjin Land Council
Djaara	Dja Dja Wurrung Clans Aboriginal Corporation
EMAC	Eastern Maar Aboriginal Corporation
ESC	Essential Services Commission
EWOV	Energy and Water Ombudsman Victoria
FP-SR	First Peoples – State Relations
Freehold Land	Titled land owned by individual or non-agency entities
HSEQ	Health, Safety, Environment and Quality
IAP2	International Association for Public Participation
JLL	Jones Lang LaSalle Incorporated. The JLL project team is providing land access, land acquisition and compensation service to AusNet Services for the WRL.
LLO	Land Liaison Officer. Each landholder is designated a Land Liaison Officer (LLO) who is their primary point of contact for the project and who will facilitate land access for surveys and the Option for Easement process. For example, the LLO will assist with gathering property specific information, arranging valuer meetings, and answering landholder questions.
Project	The ‘Western Renewables Link’
Private Land	Freehold land: Titled land owned by individual or non-agency entities
Public Land	Agency land: Land owned, managed, administered, or controlled by an agency
RAP	Registered Aboriginal Party
Statement of Expectations (SOE)	Electricity Transmission Company Land Access Statement of Expectations
S93	Section 93 of the Electricity Industry Act 2000
WRL	Western Renewables Link, or ‘the Project’ (Formerly Western Victoria Transmission Network Project)
WTOAC	Wadawurrung Traditional Owners Aboriginal Corporation
WWWCHAC	Wurundjeri Woi Wurrung Cultural Heritage Aboriginal Corporation

1. Introduction

1.1. Report purpose

This is a monthly report compiled by AusNet Transmission Group Pty Ltd (AusNet) and issued to the Essential Services Commission (Commission). This report provides a summary of the Western Renewable Link's (WRL's) performance against the general principles set out in the commission's 'Electricity Transmission Company Land Access Statement of Expectations' (statement of expectations).

The Commission requires the reports to be provided on the first business day of each month unless otherwise agreed between AusNet and the Commission. Each report contains data for the preceding month. It is acknowledged that it may not be possible to include data related to land access that occurs in the final days of the reporting period. As such, each WRL report indicates the date up until which data has been included and outstanding data for the remaining days of that month will be included in the following month's report.

Each month the Commission makes a non-confidential version of the report publicly available via its website <https://www.esc.vic.gov.au>, therefore, AusNet provides the report in two formats:

- a report with confidential information, wherein the confidential information is clearly identified; and
- a report for publication which has the confidential information redacted.

1.2. Reporting overview

The commission has outlined the following reporting metrics for AusNet to provide each month.

1.2.1. Number of voluntary access agreement negotiations underway

Where temporary access to land is necessary, the majority of affected landholders have received the voluntary land access consent form to consider and discuss with their Land Liaison Officer. Ongoing conversations regarding voluntary access consents progress organically with each individual landholder as land access is sought. For this report, the total number of landholders is defined as any person/s (including an entity e.g., company or trust) entitled to hold a parcel of land within the proposed route.

Metric reported: Section 2, Table 1

Definition: Total number of private landholders minus:

- the number of landholders that have signed a voluntary land access consent form;
- the number of landholders that have declined to sign a voluntary land access consent form; and
- the number of landholders that have not yet been presented with a voluntary land access consent form.

1.2.2. How principles 2 – 14 have been applied to voluntary access agreement negotiations underway

Principles 2 to 14 have been applied as reported in Appendix D and as detailed in the spreadsheet in Appendix C (confidential).

1.2.3. Number of voluntary access agreements entered into

The total number of voluntary land access consent forms signed will be reported monthly. It should be noted that a landholder can withdraw their prior consent at any time, therefore, this number may fluctuate.

Metric reported: Section 2, Table 1

Definition: Total number of new voluntary land access consent forms signed by both the landholder and land liaison officer, for the reporting period.

1.2.4. How principles 2 – 14 have been applied to voluntary access agreement entered into

Principles 2 to 14 have been applied as reported in Appendix D and as detailed in the voluntary land access consent form.

1.2.5. Number of notices issued regarding access under section 93 of the Electricity Industry Act 2000 (Vic)

AusNet provides written notice to enter land under section 93 (s93) of the Electricity Industry Act 2000 (Vic) (Act) to landholders a minimum of seven (7) days prior to the planned access date. As the notice to enter is sent in advance of planned access, the number of notices sent compared to number of the accesses to land that occurred pursuant to section 93 of the Act may not match.

Metric reported: Section 2, Table 1

Definition: Number of notices to enter under section 93 of the Act sent within the reporting period.

1.2.6. How principles 2 – 14 have been applied prior to issuing each notice regarding access under section 93 of the Act

Principles 2 to 14 have been applied as reported in Appendix D and detailed in the notice to enter under section 93 of the Act as well as detailed in the spreadsheet in Appendix C (confidential).

1.2.7. Number of times land was accessed pursuant to section 93 of the Act

The number of times land was accessed pursuant to section 93 of the Act, and in each instance whether each access was pursuant to a notice issued and the period between issuing a notice and access occurring.

Metric reported: Section 2, Table 1

Definition: Each instance of land access is counted separately, even if multiple instances of land access are conducted pursuant to a single notice. For instance, if a survey requires land to be accessed over three days, twice a day, it will be recorded that there were six instances of land access. The description of how the principles were applied, if common to the multiple instances of land access, is not repeated.

1.2.8. How principles 15 – 20 were applied to land accessed pursuant to section 93 of the Act

Principles 15 to 20 have been applied as reported in Appendix D and detailed in the notice to enter under section 93 of the Act as well as detailed in the spreadsheet contained in Appendix C (confidential).

1.2.9. Number and nature of complaints received in relation to section 93 access

The number and nature of complaints received, including those forwarded to the Energy and Water Ombudsman (Victoria), in relation to access under section 93 of the Act, the time to respond to each complaint, and actions taken, if any, in response to the complaint.

Metric reported: Section 2, Table 1

Definition: A complaint received from a landholder that specifically addresses their concerns in relation to land access under s93 of the Act.

1.3. Reporting period

Reporting period: 25 November 2022 – 24 December 2022

Previous reporting period: 26 October 2022 – 24 November 2022

2. ESC Statement of Expectations monthly report

2.1. Performance summary

During the reporting period, AusNet sent landholders within the proposed route a document pack with information about project activities in 2023 and individual maps of landholder's property showing indicative transmission line tower locations. The pack also included a Land Access Consent form for the landholder's consideration. The Land Access Consent form listed general surveys planned for 2023. It should be noted that all existing voluntary access agreements remain valid, but the project will work with all impacted landholders in 2023 to move towards the new Land Access Consent form. As a result, item 3 in Table 1 will track progress against all new negotiations in relation to the Land Access Consent form as of January 2023.

On Friday 2 December 2022, The Australian Energy Market Operator (AEMO) published its fifth update on the Victoria to New South Wales Interconnector West (VNI West) project, where AEMO advised it is investigating options to connect VNI West to the WRL at a location further west of the WRL project's proposed terminal station north of Ballarat, with the update nominating areas around Bulgana and Waubra/Lexton. Following this announcement, the WRL project team contacted landholders in the two nominated areas who could be affected by the investigations into relocating the proposed terminal station. On 9 December 2022, following this engagement with landholders, AusNet issued an eUpdate (Update on proposed terminal station and Environment Effects Statement submission) to project subscribers.

For this reporting period, 25 November 2022 to 24 December 2022, AusNet accessed nineteen (19) parcels of land owned by nineteen (19) different landholders. Of these parcels of land:

- seven (7) were public land;
- twelve (12) were private land;
 - eight (8) were accessed under voluntary consent; and
 - four (4) were accessed pursuant to s93 of the Act.

No compensation claims were raised in relation to land access directly to the project team during the reporting period. One (1) complaint was raised in relation to land access under s93 of the Act to the project team during the reporting period.

No complaints in relation to land access were raised with EWOV during the reporting period.

Table 1: Summary for reporting period to be

Item*	Previous reporting period	Current reporting period	Variance	Comments
1. No. of items of outgoing correspondence to landholders (including emails, phone calls & SMS)	209	360	+151	Mailed letters: 248 Phone calls: 150 Emails: 160 Text messages: 50
2. No. of face-to-face meetings	7	11	+4	
3. No. of voluntary access agreement negotiations underway	14	14	-	
4. No. of new voluntary access agreements entered into	-	-	-	Total no. of signed voluntary consents: 93
5. No. of secondary requests for voluntary consent issued	3	-	-3	Zero (0) secondary requests for voluntary consent issued.
6. No. of notice to enter issued	-	3	+3	Three (3) notices regarding access under s93 of the Act issued.
7. No. of times land was accessed under s93 of the Act	-	4	+4	Four (4) properties were accessed under s93 of the Act.
8. No. of compensation claims opened	-	-	-	No compensation claims were raised during the reporting period.

Item	Issue Number	Complaint description	Date complaint received	Time to resolve complaint	Investigation outcome and/or corrective actions
9. Complaints made to AusNet in relation to land access under s93 of the Act	-	[REDACTED]	-	[REDACTED]	[REDACTED]

provided to the
surrounding
landholders.

10. Complaints made to EWOV in relation
to land access under s93 of the Act

EWOV has not made AusNet aware of any complaints raised
with them in relation to land access under s93 of the Act during
the reporting period

Appendix A – Land Access Letter Templates

Table 2: Landholder land access correspondence process overview

Letters based on the process outlined in the Landholder Guide: Land access for field surveys and investigations September 2022

STEP		DESCRIPTION
General Landholder Communication		
1	Project introduction letter	Every landholder within the proposed route is sent a project introduction letter, including where to find more information on the project.
2	Land access request for field surveys	We will send all landholders along the proposed route a general request to consider providing voluntary consent for AusNet to access their land to undertake field surveys and investigations. These may include, for example, land use or general flora and fauna surveys. Landholders will also receive a template voluntary land access consent form for their consideration.
Specific Survey Request i.e. identified survey requirement such as Aboriginal Cultural Heritage or Geotechnical		
3a	Request to access property for specific survey (issued minimum of 21 days prior to planned access)	The LLO will contact the landholder, via their preferred method, to request access to the property for a specific purpose and timeframe. We will provide the landholders with the voluntary land access consent form to consider.
3b	Follow up request to access property for specific survey may be sent where consent has not been provided (optional) (issues minimum of 14 days prior to planned access)	We may send the landholder a further request for access to their property for a specific purpose and timeframe and outline the process. The LLO will follow up with a meeting, phone and/or email to the landholder.
Voluntary Access Agreed		
4a	Confirmation of Notice of intention to enter property via voluntary consent (issued minimum of 7 days prior to planned access)	We will confirm the upcoming property access, activities and details 7 days prior to the landholder, or as agreed with the landholder.
5a	Confirmation notice of entry via voluntary consent (on the day of access)	The LLO will contact the landholder 24 hours prior to and on the day of access to confirm arrangements, or as agreed with the landholder.
Section 93 Access		
4b	Notice of intention to enter via s93 of the Act (issued minimum of 7 days prior to planned access)	We will send the landholder notice 7 days prior advising access to their property will be undertaken using powers under section 93 of the Electricity Industry Act 2000(Vic) with full details of activities.
5b	Notice of entry via s93 of the Act	The LLO will contact the landholder 24 hours prior to and on the day of access to confirm arrangements.

Note: there are specific requirements for Aboriginal cultural heritage filed survey under the Aboriginal Heritage Act 2006 (Vic) which must be considered.

A new Land Access Consent form was sent to landholders as part of the Landholder Participation Letter pack:

- Attachment: Land Access Consent form

Western Renewables Link – Land Access Consent

Between:

- (1) [insert name of registered proprietor including ABN/ACN (if any)] of [insert address] (**Landholder**); and
- (2) AusNet Transmission Group Pty Ltd (ACN 079 798 173) of Level 31, 2 Southbank Boulevard, Southbank, Victoria 3006 (**AusNet**).

It is agreed:

1. The Landholder authorises employees, contractors, agents and consultants of AusNet and the Australian Energy Market Operator Limited (AEMO) engaged on the Project to enter the Property for two years from the date of this consent or the date agreed being _____ to undertake physical survey and investigation work as detailed in the Access Protocol.

This may include one or more of the following, which will be used to inform the Environment Effects Statement and other approvals required for the Project, as well as the design and construction of the Project:

- Land use activities including agriculture.
 - Ecological investigations.
 - Aboriginal cultural heritage surveys.
 - Historical heritage surveys.
 - Visual impact assessment.
 - Soil contamination investigation.
 - Land and cadastral survey to confirm title boundaries and geographic features.
 - Sample/testing water, vegetation and soil for planning purposes.
 - Geotechnical investigations.
2. In consideration for payment of the Landholder Participation Fee, the Landholder:
 - (a) grants access for survey purposes for two years from the date of this consent (or other date stipulated above); and
 - (b) must complete the Property Specific Details Form in sufficient detail to AusNet's reasonable satisfaction within 20 Business Days of the date of this consent.
 3. The Landholder acknowledges and agrees that the information included in the Property Specific Details Form:
 - (a) will be used to inform any specific property access requirements included in the Option for Easement if an Option for Easement is agreed between the Landholder and AusNet; and
 - (b) will be used to inform the Environment Effects Statement and other approvals required for the Project, as well as the design and construction of the Project.
 4. Subject to receipt by AusNet of:

(a) the Property Specific Details Form completed by the Landholder as required under section 2(b); and

(b) this consent signed by the Landholder,

AusNet must pay the Landholder Participation Fee to the Landholder within 20 Business Days after the Landholder has issued AusNet with an appropriate and valid tax invoice in respect of the Landholder Participation Fee and completion of any payment forms required by AusNet (if applicable).

5. If the Landholder fails to perform any of its obligations under this consent, the Landholder Participation Fee must be repaid by the Landholder within 10 Business Days of a written request for repayment being issued to the Landholder by or on behalf of AusNet.

6. The Landholder and AusNet agree that access to the Property under this consent will be conducted in accordance with the Access Protocol.

7. GST

(a) The Landholder Participation Fee is exclusive of Goods and Services Tax (GST) and:

(i) unless clause 7(b) applies, AusNet will pay the applicable Goods and Services Tax (GST) within 20 Business Days after receipt of a valid tax invoice from the Landholder following signing of this consent and receipt of the Property Specific Details Form completed by the Landholder; and

(ii) the Landholder agrees to issue a valid tax invoice for the Landholder Participation Fee promptly following signing of this consent.

(b) If the details of the Landholder:

(i) do not contain an ABN; or

(ii) do contain an ABN and at the time that any payment is due to be made to the Landholder under this consent, that ABN is not registered for GST,

then notwithstanding any other provision in this consent the Landholder warrants that:

(iii) none of the supplies to be made by the Landholder under or in connection with this consent will be made in the course or furtherance of an enterprise carried on in Australia, within the meaning of section 12-190 of Part 2-5 of Schedule 1 to the *Taxation Administration Act 1953* (Cth); and

(iv) the Landholder is not registered or required to be registered within the meaning of the *A New Tax System (Goods and Services Tax) Act 1999* (Cth).

The Landholder will indicate at the end of this consent whether this clause 7(b) applies.

8. In this consent, the following words and phrases have the following meanings unless a contrary intention appears or the context requires otherwise:

Schedule A – Access Protocol

Landholder/s (property owner/s):	<<insert landholder names>>
Property: (land certificate of title numbers - list all relevant title, lot and plan numbers):	<<Certificate of Title and lot and plan>>
Landholder's nominated contact person for access:	[manually insert details] Name: Mobile Phone: Home Phone: Email: Mailing Address:
AusNet's Land Liaison Officer	Name: [insert Land Liaison Officer name] Email: [insert Land Liaison Officer email address] Phone: [insert Land Liaison Officer phone number]
Period and form of notice required prior to and following access:	AusNet or its Land Liaison Officer will contact the Landholder's nominated contact person at least seven (7) days prior (by email or text or mail) to discuss details of the survey and investigation types, proposed timing, locations on the Property for proposed activities, number of people and vehicles or equipment that may be brought onto the Property. AusNet or its Land Liaison Officer will also contact the Landholder's nominated contact person on the day prior to the proposed access to re-confirm access arrangements and any relevant details.
Preferred access times and exclusion dates and times:	[manually insert details]
Land access procedures:	All AusNet's authorised persons entering the Property will carry identification which can be produced at any time. AusNet and its authorised persons will comply with all applicable laws in accessing the Property, including compliance with any COVIDSafe protocols. AusNet will advise how access to the Property is proposed e.g., on foot or by vehicle and the proposed location of entry/exit. AusNet will provide a description of the work program and the extent and type of activities to be conducted on the Property.

	<p>AusNet will provide an outline of the areas to be surveyed.</p> <p>AusNet and authorised persons will leave all gates, fences and grids as they are found.</p> <p>[manually insert any agreed additional details]</p>
<p>Detail of works to be undertaken (Land Liaison Officer to list survey(s) to be undertaken):</p>	<p>AusNet needs to access the Property to undertake:</p> <ul style="list-style-type: none"> • [Ecological investigations. • Aboriginal cultural heritage surveys. • Historical heritage. • Soil contamination investigation. • Geotechnical investigations.] <p>AusNet or its Land Liaison Officer will contact the Landholder at least seven (7) days prior (by telephone or email or text) to discuss details of the specific surveys and investigations to be undertaken.</p>
<p>Biosecurity requirements for access to the Property:</p>	<p>All vehicles entering the Property after being on another property must wash all tyres and mudguards with water to remove all adherent mud, seeds and faeces and all AusNet's authorised persons before entering the Property after having been on another property must undertake a washdown of their footwear to remove all traces of mud, seeds and faeces.</p> <p>Where the Property utilises a biosecurity register, AusNet and their authorised persons will sign the register prior to access, and any additional agreed protocols established for the Property will be complied with (if applicable).</p> <p>[manually insert any agreed additional details]</p>
<p>Existing hazards (plant and animal pathogens, soil contamination etc):</p>	<p>[manually insert details]</p>

Access tracks/access points (any areas where vehicle use is restricted):	[manually insert details]
Any other specific instructions or requirements regarding access to the Property:	[manually insert details]

Annexure 1 – Property Specific Details Form template

Property Details	Property Name: Property Address: Property VID:
Landholder Details	Name: Principal Contact: Mobile Phone: Home Phone: Email: Mailing Address:
Land Manager Details (if applicable)	Name: Principal Contact: Mobile Phone: Home Phone: Email: Mailing Address:

Current Land Use

Complete the table below and mark on the plan where applicable:

Production type	Comments	
Crops in affected paddocks (directly intersected by the proposed easement)		
Crops in indirectly affected paddocks (not directly intersected by the proposed easement)		
Livestock in affected paddocks (directly intersected by the proposed easement)		
Livestock in indirectly affected paddocks (not directly intersected by the proposed easement)		
Pasture (if present)	Improved pasture species present	Comments

Described by:		

Fencing & Gates

Complete the table below and mark on the plan where applicable:

Existing fencing	No. and type of wires, post type and spacing	
Boundary fencing type		
Internal fencing type	Within proposed easement	Within proximity of proposed easement
Electric fencing		

Gates	
Existing gate types (access tracks)	
Existing gate locations marked on attached plan	
Any specific gate requirements	

Any works required to secure farm access	Location	Permanent/temporary	Specification
New external gateways and crossovers proposed?			
New internal gateways proposed?			

Access Tracks

Complete the table below and mark on the plan where applicable:

Tracks	Mark on property map
Existing tracks – (also note if any are for dry weather use only)	
Existing tracks - formed tracks	
Internal tracks intersected by proposed easement area	

Proposed new access tracks - project works	Location	Permanent/temporary	Specification	Approvals required
Any new access tracks proposed?				
Any culverts and crossings proposed?				

Property Infrastructure

Complete the table below and mark on the plan where applicable:

Existing public utilities		
Electricity		
Telecommunications:		
Water	Private Water Pipeline	Local Authority Water Pipeline
Water (Other)		
Bores (public)		

Waterway crossing (if present)	Type of crossing	Condition	Photograph

Existing drainage or water courses	
Flooding – mark areas subject to flooding on property map	
Creek crossings, which can be impassable following heavy rain	
Creek runs through the proposed easement	

Vegetation	
Please detail the function of the vegetation e.g. shelterbelt (length and width and species), paddock trees (shade for stock), etc.	
Native trees and vegetation	
Non-native trees and vegetation	
Lopping or vegetation removal	
Proposed remediation	

Property Operations & Equipment

Complete the table below and mark on the plan where applicable:

Farm infrastructure	
Cattle yards, machinery and hay sheds, etc	
Irrigation equipment – pivot, travelling, other	
Farm water supply - irrigation lines (permanent)	
Farm water supply – stock water system	
Farm water – tanks, dams	

Bores (private)	
Airstrips	
Other	

Biosecurity

Special provisions for poultry farms	
Special provisions for seed potato farms	
Special provisions for certified organic farms	
Other	
Known weeds in vicinity	
Known weeds in local area	

Earthworks	
Levees	
Berms	
Erosion in the area	

<p>Other notes</p>

Appendix D - ESC Statement of Expectations performance assessment

1. ESC Statement of Expectations performance assessment

1.1. Approach to communication and engagement

Qualitative assessment of performance in relation to principles 2 – 5 can be found in the tables below.

1.1.1. Principle 2: 'Ensure staged, timely engagement and consultation'

Table 2: Approach to communication and engagement principle 2 – WRL performance for reporting period

Principle 2	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Ensure staged, timely engagement and consultation An electricity transmission company will undertake staged, timely, relevant and appropriate engagement and consultation with landowners and parties interested in land potentially affected by a proposed greenfield transmission project	<ul style="list-style-type: none"> As early as is practicable in the planning process, publish details of the project, timeline, and key milestones, and update these as information changes. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Outline the electricity transmission company's commitments and landowners' rights in plain English 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Explain what landowner input is likely to be needed and why, and at what stages of the project. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Provide timely updates and additional details as necessary to inform affected landowners on project progress. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.1.2. Principle 3: 'Be accessible and responsive'

Table 3: Approach to communication and engagement principle 3 – WRL performance for reporting period

Principle	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Be accessible and responsive An electricity transmission company will provide affected landowners with an accessible point of contact in the company. They will be available to respond to questions and address issues promptly during all stages of a transmission project.	<ul style="list-style-type: none"> Provide a designated person, such as a 'land liaison officer', for each landowner 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Provide a 24/7 contact number 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.1.3. Principle 4: 'Use accessible, readable communications'

Table 4: Approach to communication and engagement principle 4 – WRL performance for reporting period

Principle 4	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Use accessible readable communications All written electricity transmission company communication materials regarding land access must be readable and readily accessible by those affected by a transmission project.	<ul style="list-style-type: none"> Ensure all materials are written in plain English, concise and easy to follow. Avoid use of legal language. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Ensure all material is readily accessible. General information may be published on an electricity transmission company's website, notifications placed in local papers or other media where warranted, and letters or emails sent to affected landowners. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Provide links to translation services in communications. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.1.4. Principle 5: 'Employ respectful two-way communication

Table 5: Approach to communication and engagement principle 5 – WRL performance for reporting period

Principle 5	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Employ respectful two-way communication</p> <p>An electricity transmission company will communicate openly and honestly, and act respectfully and collaboratively with landowners and other parties interested in land affected by its proposed land access. Wherever possible, an electricity transmission company will incorporate landowner feedback into its decisions regarding proposed land access</p>	<ul style="list-style-type: none"> Conduct all communication collaboratively, sensitively and respectfully. This includes formal correspondence with landowners. Ensure that anyone who engages with landowners from or on behalf of the electricity transmission company has training in appropriate and effective stakeholder engagement, including on the principles in this document Be flexible where practicable to reschedule appointments and land access activities if reasonably requested by the landowner Adapt the mode, method and points of access if appropriate, if reasonably requested by the landowner. For example, where it is possible without impacting project timelines, adjustments could be made to minimise harm when paddocks are wet, during critical days of seasonal production operations, or when a landowner is unavoidably absent from a property. On request from a landowner an electricity transmission company should share the outcomes of its investigations with the landowner where appropriate and where able to do so. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.. As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.2. Process of communication and engagement

Qualitative assessment of performance in relation to principles 6 – 14 can be found in the tables below.

1.2.1. Principle 6: 'Identify and contact those affected'

Table 6: Approach to communication and engagement principle 6 – WRL performance for reporting period

Principle 6	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Identify and contact those affected An electricity transmission company will make diligent and comprehensive efforts to identify and contact landowners and others likely to be directly affected by its proposed land access.	<ul style="list-style-type: none"> Contact the registered landowner of the property to be accessed. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Contact persons occupying the property to be accessed. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Implement reasonable fallback measures when contact is not achieved or acknowledged (for example, making enquiries with Local Government), in compliance with applicable privacy laws. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Communication may be via registered mail where other attempts at contact have failed 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.2.2. Principle 7: 'Provide identification on contact'

Table 7: Approach to communication and engagement principle 7 – WRL performance for reporting period

Principle 7	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
Identify and contact those affected An electricity transmission company will ensure that anyone contacting landowners regarding land access	<ul style="list-style-type: none"> An electricity transmission company may implement a system that allows quick verification of credentials for 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

(whether by phone or verbally in person) from or on behalf of the electricity transmission company, will clearly identify themselves and who they work for, and specify the purpose of the contact.

The electricity transmission company need not disclose the full names of individuals acting for or on its behalf, provided that the individual has identification or written authorisation that a landowner can readily verify with the electricity transmission company.

authorised officers, rather than providing individuals' full details.

1.2.3. Principle 8: 'Outline access rights and obligations

Table 8: Approach to communication and engagement principle 8 – WRL performance for reporting period

Principle 8	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Outline access rights and obligations</p> <p>An electricity transmission company will provide information on the rights of landowners' and parties interested in land in relation to its land access, as well as the company's commitment to meeting the principles in this Statement of Expectations. An electricity transmission company will publish or provide a link to this Statement of Expectations on the electricity transmission company's website.</p>	<ul style="list-style-type: none"> Direct stakeholders to this statement of Expectations and to related published information. <hr/> <ul style="list-style-type: none"> Provide a simple description of: <ul style="list-style-type: none"> the electricity transmission company's right to access land even without a landowner's consent, and its obligation to do as little harm as possible. the entitlement to compensation if the electricity transmission company causes damage when exercising its rights to access land. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. <hr/> <ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.2.4. Principle 9: 'Make clear when and why access is required'

Table 9: Approach to communication and engagement principle 9 – WRL performance for reporting period

Principle 9	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Make clear when and why access is required</p> <p>An electricity transmission company will provide such information as is reasonably necessary for a landowner to understand when and why proposed access to the landowner's property is required. An electricity transmission company will provide its best estimate of the duration of access and will also explain variables that may affect that duration. Agreed arrangements for access may be time and purpose limited.</p>	<ul style="list-style-type: none"> Explain which stage of the transmission project lifecycle the proposed access relates to (that is for planning and investigations, construction, or for operation and maintenance of installed assets) 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Explain the planned dates and times when access is sought, and any variables that may affect proposed timing and how these will be communicated 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> the types of activities to be conducted on the land during access 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> the purpose of access (for example, survey, physical investigation, photographs or works) 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> the nature of proposed investigations (for example, soil composition, groundwater, flora, fauna, indigenous sites) 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> the specified area or areas of land which are requested to be accessed (if this can be reasonably identified prior to gaining physical access). 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

- the expected point or points of entry.
- As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.2.5. Principle 10: 'Explain the processes involved'

Table 10: Approach to communication and engagement principle 10 – WRL performance for reporting period

Principle 10	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Explain the processes involved</p> <p>An electricity transmission company will provide information on the processes and decisions relating to its proposed land access for a greenfield transmission project.</p>	<ul style="list-style-type: none"> • Provide timely information to help landowners and parties interested in land to understand the opportunities they have to participate in consultation on the project. This information should be provided in addition to the general information listed in principle 2. 	<ul style="list-style-type: none"> • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> • Explain interactions of the access sought with environmental, planning and other relevant government processes. 	<ul style="list-style-type: none"> • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.2.6. Principle 11: 'Commit to details on how access will occur'

Table 11: Approach to communication and engagement principle 11 – WRL performance for reporting period

Principle 11	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Commit to details on how access will occur</p>	<ul style="list-style-type: none"> • Identify and agree where possible with the landowner the dates, 	<ul style="list-style-type: none"> • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

<p>An electricity transmission company will consult with landowners on access details and commit to how access will occur. Where possible, landowners' preferences will be taken into consideration.</p>	<p>times and expected duration and mode of access.</p>	
	<ul style="list-style-type: none"> Identify key variables that may affect the proposed details. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Identify what equipment will be brought onto the land and the purpose it will be used for. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Identify how many people are expected to enter the land on behalf of the electricity transmission company, and which company or organisation they represent. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Commit to minimising attendance where possible and appropriate, generally only with those personnel reasonably required to safely perform investigations or works. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.2.7. Principle 12: 'Give reasonable notice of proposed access'

Table 12: Approach to communication and engagement principle 12 – WRL performance for reporting period

Principle 12	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Give reasonable notice of proposed access</p> <p>An electricity transmission company will ensure that notice periods and notice content (that is, providing details of activities) are reasonable. These must be proportionate both to the stage of the project, and to the potential impact of</p>	<ul style="list-style-type: none"> Seek agreement on reasonable notice periods for access that reflect land use and related timing requirements (for example, stages of crop growth, animal husbandry). 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

access on landowners and parties interested in the land.

An electricity transmission company will establish and publish minimum notice periods for land access. Where practicable, notice periods and formats should reflect the landowner's preferences.

- Establish a preferred protocol with landowners for providing adequate notice for access requests or changing of access requests (for example, email, phone call or letter).
- As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.2.8. Principle 13: 'Keep records'

Table 13: Approach to communication and engagement principle 13 – WRL performance for reporting period

Principle 13	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Keep records</p> <p>In accordance with electricity transmission licences, an electricity transmission company will maintain access related records of its contact with landowners and parties interested in land for a period of seven years.</p>	<ul style="list-style-type: none"> • Confirm in writing verbal communications pertaining to the manner of access with the landowner. • Document all communications regarding land access between electricity transmission company officers and landowners. • Make these communications available to the landowner in a timely fashion upon their request. 	<ul style="list-style-type: none"> • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.2.9. Principle 14: 'Maintain confidentiality and respect privacy'

Table 14: Approach to communication and engagement principle 14 – WRL performance for reporting period

Principle 14	ESC examples of actions by electricity transmission companies	WRL existing practice
<p>Maintain confidentiality and respect privacy</p>	<ul style="list-style-type: none"> • Apply privacy principles to access-related information collected. This includes only collecting and dealing with 	<ul style="list-style-type: none"> • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

<p>An electricity transmission company will ensure that it collects and maintains data strictly in accordance with privacy legislation.</p>	<p>information in accordance with the Australian Privacy Principles as provided in the Privacy Act 1988 (Cth)</p> <ul style="list-style-type: none"> • Provide individuals with the right to correct their personal information if necessary. 	<ul style="list-style-type: none"> • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
---	--	--

1.3. Managing impacts of access

Qualitative assessment of performance in relation to principles 15 – 20 can be found in the tables below.

1.3.1. Principle 15: ‘Minimise impact on land and landowners’

Table 15: Approach to managing impacts of land access principle 15 - WRL performance for reporting period

Principle 15	ESC examples of actions by electricity transmission companies	WRL existing practice
<p>Minimise impact on land and landowners</p> <p>An electricity transmission company will take all reasonable measures to minimise the impact of its access on landowners and parties interested in land, and on the land itself.</p> <p>This reflects the company's statutory obligations in section 93 of the Act to do as little damage as possible, and to make full compensation to the owner and all parties interested in the land for damages they sustain in consequence of the exercise of access powers under section 93 of the Act.</p>	<ul style="list-style-type: none"> • Cause as little harm, inconvenience and damage as possible to the land, as well as to anything living on or growing on the land. • Remain upon the land only for such a period as is reasonably necessary. • Remove all plant, machinery, equipment, goods or buildings brought onto, or erected on, the land on completion of access (other than any of those things that the landowner or occupier agrees may be left on the land or which are required for the purpose of the access, such as equipment for animal surveys). • Leave the land—as close as possible—in the condition in which it was immediately before the land was accessed. • Use best endeavours to cooperate with the landowner and land occupier. 	<ul style="list-style-type: none"> • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. • As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.3.2. Principle 16: 'Meet expected work standards'

Table 16: Approach to managing impacts of land access principle 16 - WRL performance for reporting period

Principle 16	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Meet expected work standards</p> <p>An electricity transmission company will ensure that all its activities on the land are undertaken in accordance with all relevant Commonwealth, State and Local Government laws. These activities are to be conducted in a proper, efficient and effective manner.</p>		<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.3.3. Principle 17: 'Meet requirements for field-based employees and contractors accessing land'

Table 17: Approach to managing impacts of land access principle 17 - WRL performance for reporting period

Principle 17	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Meet requirements for field-based employees and contractors accessing land</p> <p>An electricity transmission company will require all persons entering or accessing land on its behalf to provide identification, if requested, on each entry. Such persons are expected to have the relevant skills, training and qualifications to undertake their allocated tasks. All persons must respect the landowner's privacy, private assets and infrastructure. All gates, fences and grids are to be left as found, unless otherwise advised</p>	<ul style="list-style-type: none"> Where practicable, ensure vehicles use existing roads, access points, tracks, designated work areas or set-down areas. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Where not practicable, liaise with landowners to determine the most appropriate paths of entry. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
	<ul style="list-style-type: none"> Use risk mitigation measures. Specific examples for such measures are set out in principles 18 to 21. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

by the landowner, or where necessary and in accordance with good industry practice.

All reasonable measures to identify, avoid and mitigate risks must be observed, as well as compliance with this Statement of Expectations.

1.3.4. Principle 18: ‘Implement environmental and biosecurity controls’

Table 18: Approach to managing impacts of land access principle 18 - WRL performance for reporting period

Principle 18	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Implement environmental and biosecurity controls</p> <p>An electricity transmission company will ensure that all its activities on the land are undertaken in accordance with all relevant Commonwealth, State and Local Government laws. These activities are to be conducted in a proper, efficient and effective manner.</p>	<ul style="list-style-type: none"> Implement systems to check for active biosecurity incidents or outbreaks in an area prior to accessing a property and comply with any statutory limitations on movements arising from such incidents or outbreaks. Adopt 'come clean, leave clean' practices. Observe biosecurity signage on properties. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.3.5. Principle 19: 'Manage fire risks'

Table 19: Approach to managing impacts of land access principle 19 - WRL performance for reporting period

Principle 19	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Manage fire risks</p> <p>An electricity transmission company will take all reasonable measures to identify and mitigate fire risks associated with accessing and using land for transmission and will act in accordance with its own bushfire management plans.</p>		<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.3.6. Principle 20: 'Manage COVID and other health risks'

Table 20: Approach to managing impacts of land access principle 20 - WRL performance for reporting period

Principle 20	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Manage COVID and other health risks</p> <p>An electricity transmission company will ensure that all its activities on the land are undertaken in accordance with all relevant Commonwealth, State and Local Government laws. These activities are to be conducted in a proper, efficient and effective manner.</p>		<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.4. Managing complaints and disputes effectively and fairly

Qualitative assessment of performance in relation to principles 21 and 22 can be found in the tables below.

1.4.1. Principle 21: 'Implement effective complaint handling'

Table 21: Approach to managing complaints and disputes effectively and fairly principle 21 - WRL performance for reporting period

Principle 21	ESC examples of actions by electricity transmission companies	WRL performance for reporting period
<p>Implement effective complaint handling</p> <p>An electricity transmission company will implement effective complaint-handling processes and standards that meet current Australia and New Zealand standards for complaints handling. This process is to ensure honest, respectful, and timely responses to issues raised by landowners and parties interested in land affected by its land access.</p>	<ul style="list-style-type: none"> Publish clear steps to follow and relevant persons to contact to escalate complaints, for people who have concerns or are not satisfied with an electricity transmission company's response or actions. <p>Such steps may be:</p> <ul style="list-style-type: none"> Contact the designated land liaison officer (with contact details provided). If not satisfied, escalate concerns to a complaint resolution team (with an email address provided). If a complaint cannot be resolved following further internal investigation, contact the Energy and Water Ombudsman Victoria (EWOV). 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

1.4.2. Principle 22: 'Offer dispute resolution'

Table 22: Approach to managing complaints and disputes effectively and fairly principle 22 - WRL performance for reporting period

Principle 22	ESC examples of actions by electricity transmission companies	WRL existing practice
<p>Offer dispute resolution</p> <p>An electricity transmission company will offer third party dispute resolution to landowners and parties interested in land affected by its land access. An electricity transmission company will provide landowners and parties interested in land</p>	<ul style="list-style-type: none"> EWOV may resolve disputes involving its electricity transmission company members. Where statutory access does not meet reasonable expectations under this Statement of Expectations, landowners and parties interested in land may pursue dispute resolution through EWOV. 	<ul style="list-style-type: none"> As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change. As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.

affected by its land access with details of the Energy and Water Ombudsman Victoria (EWOV) scheme. An electricity transmission company is encouraged to include provision for third party dispute resolution in its negotiated access agreements.

-
- Where a voluntary access agreement is in place, parties should utilise any third-party dispute resolution body nominated under their agreement.
 - As per 1 December 2022 report (Document number: WVTNP-ANS-000-PLC-MR-0004_1.0). No change.
-
