## 1. Background

### 1.1 Greenfields Negotiated Electricity Connection Customer Service Standard

In March 2021, the Essential Services Commission (ESC) released its final decision on Timely Electricity Connections<sup>1</sup>. Jemena Electricity Networks (Vic) Ltd (JEN), along with other Victorian distribution network service providers (DNSPs) were directed to report on their performance against their “Greenfields Negotiated Electricity Connection Customer Service Standard” to the ESC, under condition 23.2 of their licence. The customer service standards will apply for two years.

Reporting to the ESC will be required every six months as follows:

- for the period 1 January to 30 June, reporting by 31 August that year
- for the period 1 July to 31 December, reporting by 28 February the following year.

The report must include:

- progress against commitments in the customer outcomes statement
- copy of minutes of JEN’s regular meetings with its developer partners
- performance against the measures included in JEN’s customer service standard
- the reason why any performance measures were not achieved (where appropriate)
- what actions have been or are being taken to rectify any issues
- any initiative JEN has taken to improve the service or an update on any initiative taken.

The ESC intends to publish the performance of DNSPs against their customer service standards through their Victorian Energy Market Report and updates. JEN would like to thank the ESC for the opportunity to provide an update on our Greenfields Negotiated Electricity Connection Customer Service Standard (GNECCSS) performance. This report is an indication of how JEN is performing in the GENECCS space and our ongoing commitments to improve our Customer Experience.

### 1.2 About Jemena Electricity Networks

JEN is the licensed electricity distributor for the north west of Melbourne’s greater metropolitan area in Victoria. JEN’s network service area is shown in below in Figure 1 and covers 950 square kilometres of northwest greater Melbourne and includes Melbourne Airport at its approximate physical centre together with some major transport routes. The network service area ranges from Couangalt, Clarkefield and Mickleham in the north to Williamstown and Footscray in the south and Hillside, Sydenham and Brooklyn in the west to Yallambie and Heidelberg in the east.

Figure 1 – JEN’s network service area

## 2. Our Customer Outcomes Statement

JEN has the ongoing commitment to improve its customer service standards, which we have achieved over the past three years. The work completed by JEN to date will feed directly into our engagement with our greenfield developer partners.

### 2.1 Progress of Customer Outcomes Statement

In line with our ongoing commitment, JEN has made some progress against our Customer Outcomes Statement. Table 1 below provides a summary of the progress made over the reporting period from January to June 2022.

**Table 1 – JEN’s progress against our Customer Outcomes Statement**

Customer Outcomes	Descriptions	Progress Update
Ongoing Digital Customer Experience Improvements	Continuous improvement to Jemena’s digital platforms, including Jemena Portal	<ul style="list-style-type: none"> <li>JEN has instigated a two to three-year project to develop and implement our new digital platforms, which will improve our customer interactions.</li> <li>JEN is currently developing and is expected to shortly roll out our 'Digital Boards' project – an 18-month project that will deliver improved visibility of all projects within Jemena.</li> </ul>
Design Review Process Improvements	Deliver improved tracking of the design review process, including commencement date and accurate expected review dates, to assist in managing construction planning	<ul style="list-style-type: none"> <li>End-to-End Asset Management – this is a Jemena project aimed at improving how we service our customers by reviewing our end-to-end processes, with a focus on our delivery processes.</li> <li>Our 'Digital Boards' project is aiming to provide new insights on rolling averages for design review times across the board. This initiative will help highlight key areas in our review process that can be targeted for continuous improvement.</li> </ul>
Project Manager Accessibility	Dedicated Project Manager to assist with end-to-end processes and provide an escalation pathway within JEN should any further assistance be required	<ul style="list-style-type: none"> <li>Each project is appointed a dedicated Project Manager who acts as the key point of contact for the project developers.</li> <li>Resourcing has increased, with Senior Project Managers put in place to support the Project Managers.</li> <li>Further detailed escalation processes have been established across the business to assist customers achieve their desired outcomes in a more efficient manner.</li> </ul>

### 3. Performance Reporting

#### 3.1 Performance Outcomes

Performance Measure	Target	Maximum Target	Jan – Jun 2022 Actual	Performance Summary and Key Insights and Indicators	What we are doing to improve.
Offer issued (average business days to issue offer)	40 days	65 days	34 days (within range)	<ul style="list-style-type: none"> <li>2022 saw a further 17% increase (compared with the previous reporting period of Jul to Dec 2021) in applications and activity in the Jemena Greenfield space.</li> <li>Despite the increase, JEN has delivered significant improvement on its timeframe to issue customer offers, bringing it under the Target.</li> <li>This 6-month reporting period saw ongoing COVID-19 challenges which were managed by JEN to minimise the impact on our customers.</li> </ul>	<ul style="list-style-type: none"> <li>JEN continues to actively monitor volumes and adapt to the market needs with resourcing levels which included recruitment of additional Project Managers during the period.</li> <li>Our Digital Boards program along with further process improvement initiatives provides us with the ability to track our progress on a day-to-day basis. This has been supported by weekly progress meetings to align on actions required to progress applications</li> </ul>
Masterplan review (average business days taken to review)	15 days	20 days	44 days (targets not met)	<ul style="list-style-type: none"> <li>JEN had 1 masterplan review during the reporting period</li> <li>JEN acknowledges the average time to complete a Masterplan review was above the targeted timeframe.</li> <li>Delays have been primarily attributed to resourcing constraints in the Network Planning team.</li> </ul>	<ul style="list-style-type: none"> <li>JEN has since successfully recruited additional resourcing in the Network Planning team which we expect will improve on this result.</li> </ul>
Design review (average business days taken to review)	15 days	20 day	45 days (targets not met)	<ul style="list-style-type: none"> <li>JEN acknowledges that the average time to complete a Greenfield Estate design review has increased over the reporting period.</li> <li>This is a result of increased activity in the Greenfield application space compounded by limited Designer resources.</li> <li>JEN is in the process of reviewing and refining its design review process with the aim of rolling out further efficiencies in this space.</li> </ul>	<ul style="list-style-type: none"> <li>JEN is in the process of actively recruiting to increase resourcing, to reduce the Design review timeframe.</li> <li>Further process improvement initiatives, such as the E2E initiatives and parallel reviewing by teams, will be implemented to drive further improvements in the</li> </ul>

					timeframes taken to complete design reviews.
Pre-commissioning audit (average business days to complete audit) WCOM	5 days	10 days	15 days (targets not met)	<ul style="list-style-type: none"> <li>JEN acknowledges the result for pre-commissioning audits over the reporting period is above the maximum target.</li> <li>The actual timing includes failed audit attempts (outside of JEN's control), which we currently do not have visibility of and has impacted the overall timeframe on this metric.</li> <li>Based on current practices, JEN is only seeing the initial application date and the date a pass audit outcome is achieved.</li> </ul>	<ul style="list-style-type: none"> <li>JEN is in the process of rolling out new reporting requirements to our Auditing contractors, which will provide further visibility of the audit timeframes, including failed audits which can increase the audit timeframes.</li> <li>With this visibility, we expect the result to significantly improve as we track the appropriate timeframes.</li> </ul>
Consent to statement of compliance (average business days to release statement)	5 days	10 days	3 days (target met)	<ul style="list-style-type: none"> <li>JEN has made headway in significantly driving down the timeframes for issuing SOC to our customers.</li> <li>This has seen this timeframe fall below the expected target timeframes.</li> </ul>	<ul style="list-style-type: none"> <li>JEN is continuing to explore opportunities to improve the process of triggering SOC request beyond email, including automation of this process.</li> </ul>
Time taken to tie-in (average business days of time taken between passed audit and tie-in date) SOM PLANNER	30 days	40 days	35 days (within range)	<ul style="list-style-type: none"> <li>JEN reports that despite achieving reductions in our timeframes compared with previous years, we are still slightly above the target timeframe, however below our maximum timeframe.</li> <li>Increased customer activity across the Greenfield program impacted the overall timeframe for Jemena to action tie-in requests.</li> <li>This 6-month reporting period result impacted by ongoing challenges relating to COVID-19 and JEN's resourcing.</li> </ul>	<ul style="list-style-type: none"> <li>This process is currently under review through our E2E initiatives, and we will propose future improvements in this space.</li> <li>JEN continues to actively monitor volumes and adapt to the market needs including engaging additional contractors where possible.</li> </ul>

## 4. Ongoing Customer Engagement & Consultation

### 4.1 Customer Engagements

#### Ongoing Developer Engagement

- In line with our commitments, JEN confirms it has maintained our ongoing one to one consultation commitments with our key development partners.
- Our approach to customer consultation is customized to meet our individual customer's needs and aligned to their development plans.
- JEN dedicated project managers continue to work hand in hand with our customers to meet their needs.
- Jemena will host an annual Greenfield Developer meeting with our key developer partners in September 2022. This meeting will align with the ESC initiative to obtain Developer feedback on JEN's Greenfield Customer Service Standards.

#### Annual Reputation Survey

- JEN undertakes an annual reputation survey that includes developers as part of the cohort list. The feedback received from our stakeholders, including developers, helps highlight areas for continuous improvements and provides invaluable feedback on the customer experience.
- Jemena is undertaking the next annual reputation survey in August / September 2022.

### 4.2 Improvement Initiatives

As noted above, JEN has a continuous improvement commitment to deliver improvements to the customer experience. In addition to the improvements noted, Table 2 below outlines additional improvement initiatives that JEN is either currently undertaking or planning to undertake.

**Table 2 – Additional improvement initiatives**

Ongoing Improvement Commitments	Descriptions
Customer Improvements	<ul style="list-style-type: none"> <li>• <b>Jemena CX Uplift Project</b> – Jemena is at the scope and design stage of our Customer Experience Uplift project. This is a 24 month project which, once delivered, is ultimately expected to result in a modernised and more interactive customer portal, along with various process improvements to support the Greenfield space.</li> </ul>
Process Improvements	<ul style="list-style-type: none"> <li>• <b>Jemena Accredited Contractor Program</b> – JEN continues its work developing and rolling out an accredited contractor program that will help customers manage any contestable works. This program aims to provide customers with a list of Jemena accredited contractors for various activities to draw from.</li> </ul>
